

31 March 2023

JEVIC Launches Export Plant Inspection Service as a Japan MAFF Registered Inspection Agency

JEVIC are pleased to announce that we have been approved as a "Registered Inspection Agency" by the Japan Ministry of Agriculture, Forestry and Fisheries (MAFF) in accordance with Japan's Amended Plant Protection Act (April 2023), as of April 1, 2023.

Link to our Registration on the MAFF website: *Only in Japanese
https://www.maff.go.jp/j/syouan/syokubo/keneki/yusyutu_kensakikan.html

As a Registered Inspection Agency we will provide Detailed Testing (including PCR assay) on seed for export and domestic use, Field Inspections, Disinfestation Inspections, Visual Inspection of plants and goods as well as their containers and packaging, and the Inspection of used agricultural machinery for export to the EU and other destinations. Our full service includes the application to MAFF for the issuance of phytosanitary certification on the clients behalf.

Through these services we aim to contribute to global food security, environmental preservation and support the export of Japanese products.
